

LAMINATO

Nata nel 2002, GP Porte è un'azienda giovane e dinamica che opera nel settore della produzione e del commercio di porte in legno, laminato e vetro. Con sede a Torano Castello Scalo, in provincia di Cosenza, si sviluppa su un'area di 7.000 mq, tra laboratori di produzione e show room.

Nel corso degli anni, l'azienda si è affermata investendo sulla qualità dei materiali (made in Italy), sulle tecnologie di produzione e sulle risorse umane; tutto ciò le ha permesso di affrontare le sfide del mercato, sia a livello nazionale che internazionale, e di ottenere la certificazione ISO 9001, garanzia di qualità ed efficienza.

Un mix di tradizione e innovazione per realizzare prodotti che vanno dal classico al moderno, con soluzioni sempre più all'avanguardia. Ogni singolo passaggio di produzione viene seguito con attenzione e minuzia dal team aziendale, capace di andare oltre gli standard e di trasformare un'idea in un prodotto totalmente personalizzato fin nei minimi dettagli.

L'offerta proposta da GP Porte risulta perfetta per chi ha particolari desideri da esaudire in quanto comprende un'ampia gamma di porte realizzate su misura, di ogni forma e con qualsiasi decoro, garantendo sempre l'affidabilità e la solidità del prodotto.

L'AZIENDA THE COMPANY

Born in 2002, GP Porte is a young and dynamic company which works in production and trade sector of wood, laminate and glass doors. Its headquarters are set in Torano Castello, in the province of Cosenza, Calabria, Italy: it develops in a 7.000 sqm area, between production laboratories and show rooms.

Over the years, the company has affirmed itself by investing on materials quality (made in Italy), on productive technologies and on human resources; this allowed it to undertake market challenges both on national and international level, and gain the ISO 9001 certification, quality assurance and efficiency.

A mix of tradition and innovation to realize products which go from classic to modern, with solutions more and more at the forefront. Every single production step is followed with attention and details care by the company team, which can go beyond standards and transform an idea in a product totally customised even in the minimum details.

The offer proposed by GP Porte is perfect for someone who has wishes to fulfill because it consists of a wide range of doors tailored with every shape and decor, always ensuring reliability and product solidity.

Linea EVOLUTION

Per una porta che sia parte integrante dell'architettura interna la linea Evolution è in grado di mutare la sua struttura e obbedire alle esigenze funzionali dell'ambiente. Una variazione direzionale della venatura originaria permette di realizzare anche porte di grandi dimensioni.

For a door that is part of the interior architecture, the Evolution line can change its structure and obey the functional requirements of the environment. A directional variation of the original grain allows to also realize doors of big dimensions.

Linea GLASSY

Su/On **CLASSIC**

La valorizzazione della luce e l'abbinamento delle più svariate tecniche decorative sono il principale vantaggio della linea Glassy. Forme modulari forano i pannelli e risaltano la loro profondità grazie al fermavetro che incornicia le diverse scelte cromatiche dei vetri.

The enhancement of light and the combination of the most varied decorative techniques are the main advantage of the Glassy line. Modular shapes pierce the panels and enhance their depth thanks to the glass-stop that frames the different chromatic choices of the glass.

Non c'è limite all'immaginazione quando si parla di porte Inciso. La tecnologia del disegno pantografato unita alla creatività che lo stile personale può generare, danno vita a svariate soluzioni grafiche e permettono qualsiasi tipo di personalizzazione. Linee che possono tracciare una firma indelebile perfino coordinata e continua con pareti, vetri e boiserie.

There is no limit to the imagination when it comes to Inciso doors. The technology of pantographic design combined with the creativity that personal style can generate, give life to a variety of graphic solutions, and allow any type of customization. Lines that can draw an indelible mark even coordinated and continuous with walls, glass and boiserie.

Linea METAL DESIGN

Su/On **CLASSIC**

L'efficacia di linee geometriche o sinusoidali discretamente inserite nelle più diverse superfici è ciò che dà valore alla linea Metal Design e alle varianti da essa derivate. Il metallo, cromo satinato o dorato, fende la porta disegnando forme contenute nel pannello o portate fino al limite dello stesso.

The effectiveness of geometric or sinusoidal lines discreetly inserted in the most diverse surfaces is what gives value to the Metal Design line and the variants derived from it. The metal, satin chrome, or gold cuts the door by drawing shapes contained in the panel or brought to the limit of the same.

Linea BICOLOR

Su/On **CLASSIC**

Un tocco di colore può rendere unica la vostra porta in Laminato. Bicolor è una linea dal carattere estroso che nasce dalla sperimentazione estetica e dalla desiderio di dar sfogo alla vostra fantasia. Le essenze sono personalizzabili con un inserto laccato di qualsiasi colore RAL.

A touch of color can make your laminate door unique. Bicolor is a line with a whimsical character that comes from aesthetic experimentation and the desire to give vent to your imagination. The essences can be customized with a lacquered insert of any RAL color

Linea BILINE

Su/On **CLASSIC**

Un intreccio di trame e finiture, una linea dal taglio contemporaneo, risultato di un'accurata ricerca stilistica e dei materiali. Le porte Biline permettono la più libera interpretazione del concept cromatico e materico proposto dalla nostra produzione: incontri direzionali di venature monocromatiche o contrasti di diverse essenze nella stessa porta.

A twine of wefts and finishes, a line with a contemporary cut, the result of an accurate stylistic and material research. Biline doors allow the freest interpretation of the chromatic and material concept proposed by our production: directional meetings of monochromatic veins or contrasts of different essences in the same door.

Linea FASHION

Essenziali e sinuose nel disegno, composte di pannelli a taglio retto o curvo, le porte della linea Fashion sono adatte a qualsiasi tipo di arredamento. La loro peculiarità sta nella presenza dei montanti laterali che conferiscono resistenza al pannello con inserto vetro di serie.

Essential and sinuous in the design, composed of straight or curved cut panels, the doors of the Fashion line are suitable for any type of furniture. Their peculiarity lies in the presence of side uprights that give strength to the panel with glass insert as standard.
